PLANT & SEED SWAP FREE STUFF!

Saturday, October 1st from
11 until 1:30
Rotary Park in Johnson City

Join us for what might be the most popular event of the SAPS year as we swap, recycle, place our bids, and enjoy each other's company. Flower, herb, and vegetable seeds are always welcome. (Please label with the variety name, if known.) Plants are welcome, too; so divide overgrown clumps and share the bounty. Special plants will earn a spot in the Silent Auction, along with any garden items you care to donate. Silent Auction profits help bring in top-notch speakers to SAPS each year.

Gather up plastic nursery pots (quart size and up) to be reused by area growers. And why not sort through those stacks of gardening magazines and catalogs you cannot bear to throw away? Someone will enjoy poring over them this winter.

Try out a new recipe on us or whip up your signature dish for the Potluck Luncheon. We gardeners always lay out quite a spread. Greet the new Master Gardener class, our invited guests. Rain or shine the huge picnic shelter will allow us to enjoy the fellowship of gardening pals.

The Knoxville Botanical Garden and Arboretum

is a 44-acre "secret" garden spot in East Knoxville you may not have heard of since this gardening showcase made its debut just three years ago. It first opened to the public after a partnership between the Howell family and community leaders came to an agreement for its use. Besides a wealth of plant, tree, and flower specimens, the KBG presents a horticultural history of Knoxville, the Civil War, and Native American activity at the site.

Last year, the Botanical Garden celebrated its first **Fall Family Harvest Festival** and that success led to an even larger event this year, October 15th, from 10 am until 4 pm. There will be tours of the garden, hayrides, a petting zoo, craft and food vendors, regional artists and demonstrations, plus garden classes. Admission is \$5 for adults, free to children under 12. Call 865.862.8717 or visit www.knoxgarden.org
