

Three Season Vegetable Gardening

Earl Hockin, a master gardener and president of the 200+ member Southern Appalachian Plant Society, moved to northeast TN in 2011. He lived most of his life in the Northwest so upon arriving in here he had to learn the changes needed to successfully garden in this part of the world.

Earl's presentation will focus on –

Growing vegetables for 3 seasons and being able to harvest through all 4 seasons;
Vegetable gardening in traditional garden beds, raised beds or containers;
What and when to plant/transplant throughout the year;
A few of his favorite plant varieties; and,
Information about maintaining the health of the soil and plants.

Where: Rocky Mount State Historic Site
200 Hyder Hill Road
Piney Flats, TN 37686
(423) 538-7396
